Adlington

Adlington features a fresh and light white colouring mixed with traces of natural tones that's ideal for creating an illusion of space in small gardens. Coordinate with statement pops of colour and a mixture of florals for a bright and exciting space, or for a more traditional Mediterranean look add terracotta pots and deep aqua blue tones reminiscent of the sea and summer sky. Fade resistant in strong sunlight and resistive to algae and moss, Adlington will look perfect for many years to come.

Each tile features a varied mix of black and natural shades that are indistinguishable from real slate making it a practical and low maintenance option for a variety of outdoor spaces. Remember to always mix up your tiles prior to fixing to create a pleasing blend of shades.

Each tile features a varied blend of soft grey and natural shades, carefully crafted from durable porcelain to look just like natural stone but without the need for sealing or excessive maintenance. Relax and enjoy your time outdoors on a beautiful patio area, rather than investing all your time with upkeep. Remember to always mix up your tiles prior to fixing to create a pleasing blend of shades.

Harewood

If you love the look of natural wood or timber decking, then Harewood is the perfect collection to create a hard wearing and durable patio area. Unlike timber, our porcelain tiles do not require sealing to protect them and will not rot or become slippery in wet weather. Contemporary Grey creates a cool and stylish space, whilst the Oak shade grounds gardens and offers natural charm. Our indoor 11mm thick tiles come in a slightly smaller format to better suit interior spaces and blur the boundaries between indoor and outdoor living.
